**For a pool  
that ensures  
peace of  
mind.**

*Mineral purifier with  
integrated chlorine  
dispenser:*

- less chlorine, softer water
- unique bathing comfort

*Natural Mineral Purifiers  
for Pools and Spas*

# ZODIAC : the stress - free pool

To prevent your pool from becoming a regular chore, Zodiac brings you an semi-automatic system that saves you having to think about water treatment, allowing you to get the most out of your pool with complete peace of mind.

## ➤ 4 ADVANTAGES FOR YOUR COMFORT AND WELLBEING:

- Water that is permanently clear and soft
- No irritation to the eyes
- No dryness of the skin
- No unpleasant taste

## ➤ YOUR COMFORT REQUIRES NO WORK ON YOUR PART:

- Semi-automatic water treatment
- Fewer chemical products
- Simplified pool maintenance
- Algae-free

## EASY TO USE

- The large aperture of the chlorine dispenser compartment makes it easy to load the tablets.
- It's also easy to change the Pro Plus cartridge every 6 months.
- The date ring tells you when to renew your mineral purification cartridge.
- Easy winterisation, thanks to the drain plugs.

## A NATURAL SYSTEM THAT RESPECTS THE ENVIRONMENT

- Fewer chemical products to worry about.
- The water in your pool is more natural and stays clear day after day.

## RAPID INSTALLATION

- Easy, electricity-free connection to a new system or to an existing installation.
- Pro Plus is supplied with the adaptors required for fitting on to all types of installation: 50 mm diameter hose connections.

# Pro Plus

**Less chlorine**  
Balanced water requiring fewer tests and checks.

**Independent Operation**

- Mineral purification throughout the season.
- Chlorine dispensed for 2 months (for a 75m<sup>3</sup> pool - under normal conditions of use).

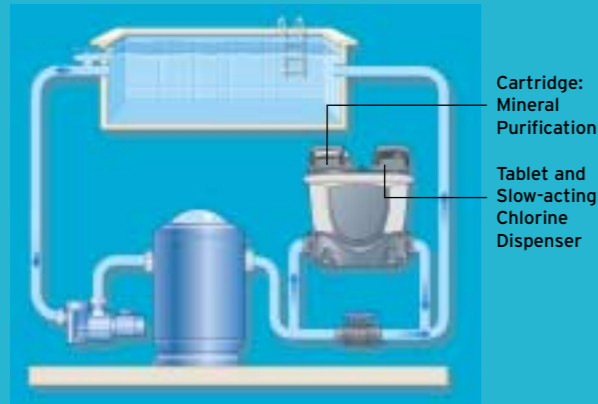

**Easy setting and adjustment**  
A milled wheel is used to adjust the amount of chlorine.

**Eco-friendly**  
Fewer chemicals, softer water.

## PRO PLUS IS SUITABLE FOR ALL TYPES OF POOL AND POOL SURFACES

### RECOMMENDATION:

- Pro Plus offers all in-ground pools from 40 to 170 m<sup>3</sup> a choice of cartridge according to the volume of water to be treated:
  - CG25 : from 40 to 90 m<sup>3</sup>
  - CG35 : from 90 to 30 m<sup>3</sup>
  - CG45 : from 130 to 170 m<sup>3</sup>

### Warning! Pro Plus is not compatible with:

- Bromine and its derivatives.
- Chlorine-free PHMB disinfectants (or biguanides): Baquacil®, Revacil®, Oxyline®.
- Other products containing copper.
- ALKORPLUS anti-stain.

## ➤ HOW DOES PRO PLUS WORK?

- Pro Plus combines a mineral purifier with tablets of stabilised slow-acting chlorine\* in a dispenser to ensure the water in your pool is always soft and healthy.
- As Pro Plus is controlled by the filtration, the ten 250g stabilised slow-acting chlorine\* tablets dissolve precisely and evenly in the pool and remain effective for approximately 2 months (in a 75 m<sup>3</sup> pool).
- Once the Pro Plus cartridge has been activated by shock chlorination, the mineral particles combine with the free chlorine to increase the overall disinfectant action. Thanks to the mineral particles' power to kill both bacteria and algae and to clarify the water in your pool, the quantity of slow-acting chlorine needed is reduced by about a half the amount necessary, under normal conditions of use. The pH is also more stable.

## ➤ FOR YOUR COMFORT

- To get the best out of your purification system, the pH of the water should be maintained at between 7.2 and 7.4.
- Properly balanced water (pH, hardness, total alkalinity) and an efficient filtration system suited to your pool and to its conditions of use, are always essential to good water quality.

\* trichloroisocyanurate - average doses apart from in exceptional climatic conditions
