**Voyager™ 2X**  
Electric robot cleaner

### HOW DOES IT WORK?

Voyager 2X is an electric robot cleaner that operates on a very low safety voltage. It is completely independent of your pool's filtration system. The debris sucked up is collected in the Voyager 2X filter bag, before reaching the pump basket.

### CLEANING YOUR POOL: WITH VOYAGER 2X, NOTHING COULD BE EASIER

1. Plug the control unit into the mains (220/240 V).
2. Place your Voyager 2X in the water.
3. Use the control unit to select the required cleaning time.
4. Sit back and relax!

### QUALITY AND SAFETY

Voyager 2X is made in France by Zodiac: that is your assurance of investing in a cleaner that has been designed, produced and quality-controlled with the greatest possible care and attention. With Voyager 2X, Zodiac offers a total guarantee of reliability and compliance with the relevant electrical safety standards.

### ZODIAC, MASTERING THE ELEMENTS.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners, water treatment systems, heating systems and dehumidification units for swimming pools.

Backed by Baracuda technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance.

A real guarantee of efficiency and peace of mind!

## A quite exceptional worry-free pool!

With Voyager 2X, you'll appreciate the simplicity and efficiency of a powerful robot cleaner. Easy to use, Voyager 2X does not require any programming. You simply have a choice of two cleaning cycles according to your requirements: fast efficient cleaning in Turbo mode, or a longer more intensive and meticulous clean in Perfect mode.

Voyager 2X gives you the assurance of optimum cleanliness without any effort on your part.

### ▶ FOR WHICH POOLS?

- ▶ In-ground pools.
- ▶ All pool shapes (rectangular, oval, round, free-form).
- ▶ All types of finish (tiles, liners, polyester shells, reinforced PVC, painted concrete).
- ▶ Flat-bottomed, gently sloping, composite slopes, diamond-shaped diving areas.

## Voyager™ 2X , your pool impeccably cleaned in all simplicity.

### SIMPLE TO USE

- ▶ Effortless cleaning: your pool is cleaned simply and automatically, you need only select the cleaning time required.

The Turbo cycle: fast efficient cleaning in 1,5 hours.

The Perfect cycle: 3 hours' meticulous intensive cleaning of the pool and its waterline.

### ROBUST AND RELIABLE

- ▶ Voyager 2X is made from high strength materials (ABS) and undergoes numerous controls at every stage of production.
- ▶ Its design is based on proven Zodiac technology.

### EFFICIENCY

- ▶ Complete optimum cleaning whatever the type of your pool.
- ▶ Voyageur 2X is equipped with a high-performance filter bag designed to suck up all types of debris, even the tiniest of particles.
- ▶ Pool coverage is total: Voyager 2X cleans it all, the bottom, the sides, the water- line ,the entire pool...

### EASY MAINTENANCE

- ▶ Rinse the filter bag in clean water or place it in the washing machine.
- ▶ You can clean the robot with water just as easily.
